TNEBEF

In continuation to the various instructions regarding revenue augmentation measures issued earlier, further instructions are hereby issued in order to arrest the leakage and to maximize the revenue in respect of LT/LTCT service connections, apart from other revenue augmentation measures. The following aspects may be taken up on priority, during the month of October 2020 so as to arrange to achieve the target for additional revenue fixed for each EDC, to the best possible, by way of inspection, as noted in the annexure:

- i) Inspection of the LT service connections where the assessment has been recorded between 480 and 500 units in domestic service connections during the bill month October 2020.
- ii) Realization of arrears from the service connections under disconnection.
- iii) Inspection of multiple service connections in the same premises and arranging merger of service connections as per the provisions of Supply Code/tariff orders in force.

2.0) The SE/EDCs are requested to arrange to instruct the officials concerned to take necessary action in this regard. A Consolidated report may be sent to this office before 07.11.2020.
